

# FREE DWG to PDF Creator

by [SkySof Software Inc.](#)

Download: <http://www.getfilez.com/dwgtopdf.exe>

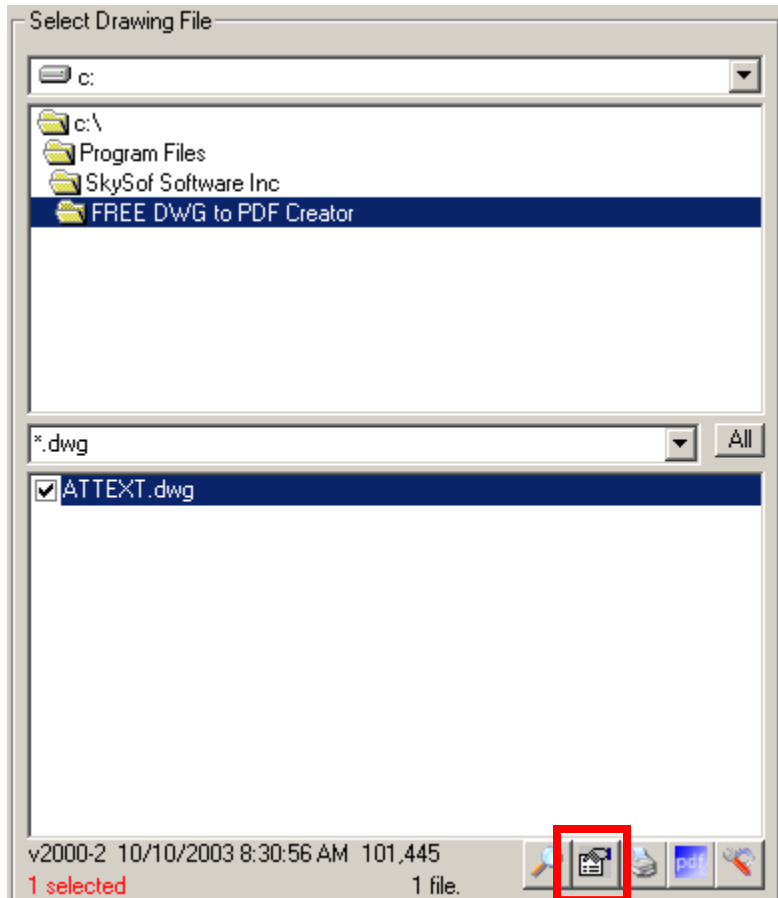

## 1. Introduction

FREE DWG to PDF Creator is a lightweight powerful utility for viewing and printing AutoCAD drawing files and creating high quality PDF files from AutoCAD DWG/DXF/DWF files. AutoCAD Drawing Viewer does not require AutoCAD to run and is compatible with all AutoCAD drawing versions.

If you enjoy using FREE DWG to PDF Creator please try our other useful AutoCAD utility **Ultra AutoCAD Tool**. Features of Ultra AutoCAD Tool include: extract data from drawing files (CSV,XML,HTML) and import to a database or Excel workbook, create DXFs from DWGs, find and replace text, find and replace block attribute values, find and delete text objects, find and delete block attribute objects, find and delete block objects, set layer status (on/off/thawed/frozen), save drawings as older or newer version, find and replace image paths, find and replace external reference paths, etc. Download it now from our web site at <http://www.getfilez.com/acadtool.zip>

## 2. Creating PDF files from DWG/DXF/DWF files

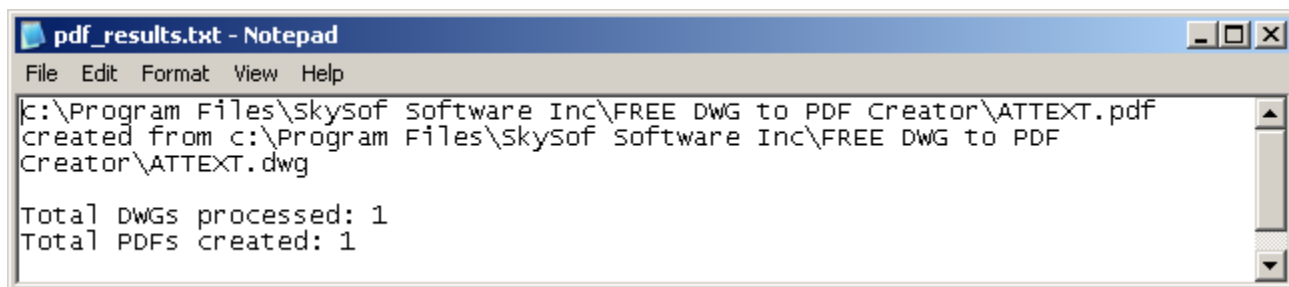

With FREE DWG to PDF Creator you can create batches of high quality PDF files without having Adobe Acrobat or AutoCAD installed! Go to folder C:\Program Files\SkySof Software Inc\FREE DWG to PDF Creator and click the button highlighted below by a red square to select file ATTEXT.DWG. A check will appear to the left of ATTEXT.DWG.

Now click the button indicated below to create the PDF file.

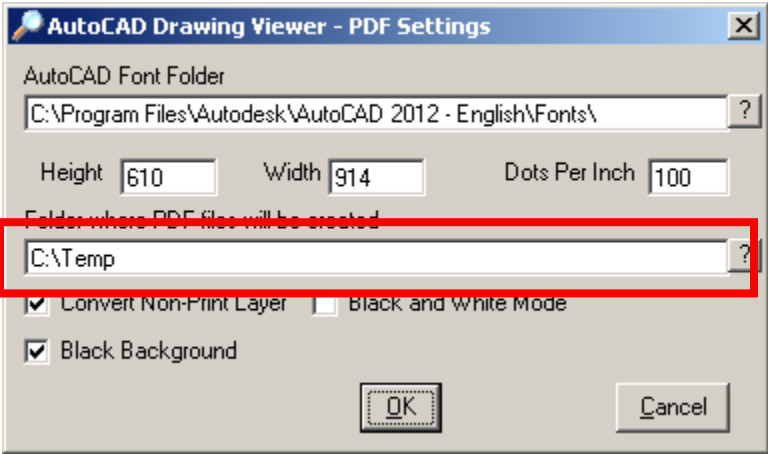

If the PDF file was created successfully Notepad will open with the following message:

This example creates only one PDF file but you could have just as easily created a PDF file for each AutoCAD drawing file within a folder. By default the PDF file is created in the same folder as the AutoCAD drawing file. If you want to change the default folder click this button:

Enter the name of the new default folder here and click the OK button to save your changes.

### 3. Creating PDF files from DWG/DXF/DWF files in Command Prompt Mode Silently

- 1) Click the Window's Start button then select Run...
- 2) Type cmd and click the OK button to enter Command Prompt mode

- 3) At the Command Prompt type the following:

```
"C:\Program Files\SkySof Software Inc\FREE DWG to PDF Creator\dwgtopdf.exe" C:\Program Files\SkySof Software Inc\FREE DWG to PDF Creator\*.dwg
```

- 4) Check folder C:\Program Files\SkySof Software Inc\FREE DWG to PDF Creator to verify that PDF files were created.

Note:

The file PDF\_RESULTS.TXT will be created in the same folder as the PDFs but since the application was run in silent mode the file will not be opened in Notepad. \*.dwg = all drawing files. You can use wildcard characters \* and ?. Some examples: a\*.dwf, s???.dwg, de\*.dwg

If you want to include AutoCAD drawing files in sub-folders use the /s switch like so:

```
"C:\Program Files\SkySof Software Inc\FREE DWG to PDF Creator\dwgtopdf.exe" C:\Program Files\SkySof Software Inc\FREE DWG to PDF Creator\*.dwg /s
```

Alternatively, you can also run from the Window's Run... menu item

- 1) Click the Window's Start button then select Run...
- 2) Type the following:

```
"C:\Program Files\SkySof Software Inc\FREE DWG to PDF Creator\dwgtopdf.exe" C:\Program Files\SkySof Software Inc\FREE DWG to PDF Creator\*.dwg
```
